

S2E and Codemotion sign a partnership agreement for software development and cybersecurity training and recruiting

Milan, April 13th 2022 - [S2E Solutions 2 Enterprises](#), a business technology consulting company, announces a partnership with [Codemotion](#) - a multi-channel platform supporting the professional growth of IT developers and professionals. This attracts new software development and cybersecurity professional hires.

With a strong focus on people and sustainability, S2E has invested heavily in internal and customer-facing training. "People" recruiting team defines strategies that attract the best talent and ensure their professional development within the company. It handles People Recruitment and Selection, Onboarding and Induction, Performance Assessment, Training and Development, Compensation and Benefits, and Organisation. This ensures the best organisational experience and enhances human capital for the corporate life cycle of each employee.

S2E People Manager Sonia Terranova said: "The agreement with Codemotion allows us to connect with a wonderfully talented community which provides a valuable pool of potential professional resources for S2E and its customers. S2E is an externally attractive and stimulating working environment for developers, and establishing a "meeting area" with them through Codemotion is a highly effective solution to achieve our objectives."

Codemotion is the largest developer community in Europe that helps organisations create technical teams from a pool of the best talent on the market. The platform engages tech profiles through various content and events (on-demand and live) while supporting companies during their digital transformation to approach developers and become innovators.

S2E's focus on new STEM graduates grows thanks to the synergy with Start Hub Consulting

To become IT specialists, S2E Academy selects and trains recent young graduates in STEM subjects (**Science, Technology, Engineering and Mathematics**). S2E participated in the Digital Recruiting Week STEM GIRL organised by [Start Hub Consulting](#) to highlight its employer branding strategy. This is a digital event for **STEM** graduates who want to find out about the best companies that are hiring. The 21-25 March Event had an all-female webinar, where Business Line Manager Roberta Baudo, Presales Security Elisabetta Dessì and Data Engineer Paola Marchesini talked about their S2E work experience and the opportunities they had within the company. They spoke of how they made the most of their skills and put them at the internal ecosystem's disposal.

S2E

S2E Solutions2Enterprises is a 100% Italian business technology consulting company. Founded in 2008, it is headquartered in Milan with offices in Rome, Lecce and Tel Aviv (Israel). Today it relies on more than 300 professionals, including employees and business partners. S2E makes innovation and new technologies scouting its strong point.
