for our company through our work and our services

## Who we are

S2E | Solutions2Enterprises is a business technology firm, 100% Made in Italy, founded in 2008.

The company counts over 430 professionals, including 375 IT specialists

**Mission** Empowering digital transformation through tailored solutions and emerging technologies

**Vision** Promoting sustainable innovation with people and technology at the center

**Locations** Headquarters in Milan, with offices in Rome, Lecce (R&D Center) and Luxembourg

**Core principles** Innovation and continuous technology scouting, people-centric culture, inclusive workplace promoting diversity and equal opportunities. **S2E contributes to ESG (Environment, Social, and Governance) efforts.** Being socially responsible means contributing to meaningful change for our company through our work and our services

**Key Sectors served** Banking, insurance, retail, energy & oil, telecom, utilities, fashion, and public administration.

Founded in 2025 after years of strategic investments, Galene.AI is the S2E spin-off dedicated to developing generative AI technologies and platforms that are scalable, ethical, and fully EU-compliant.

Galene.AI accelerates business innovation through secure, ethical, and scalable AI solutions. Thanks to its proprietary Agentic AI and AI Governance technologies, it enables enterprises to maximize productivity while ensuring responsible, safe, and compliant AI adoption. Platforms and technologies designed to drive innovation and human productivity — without compromising on ethics, security, or compliance.

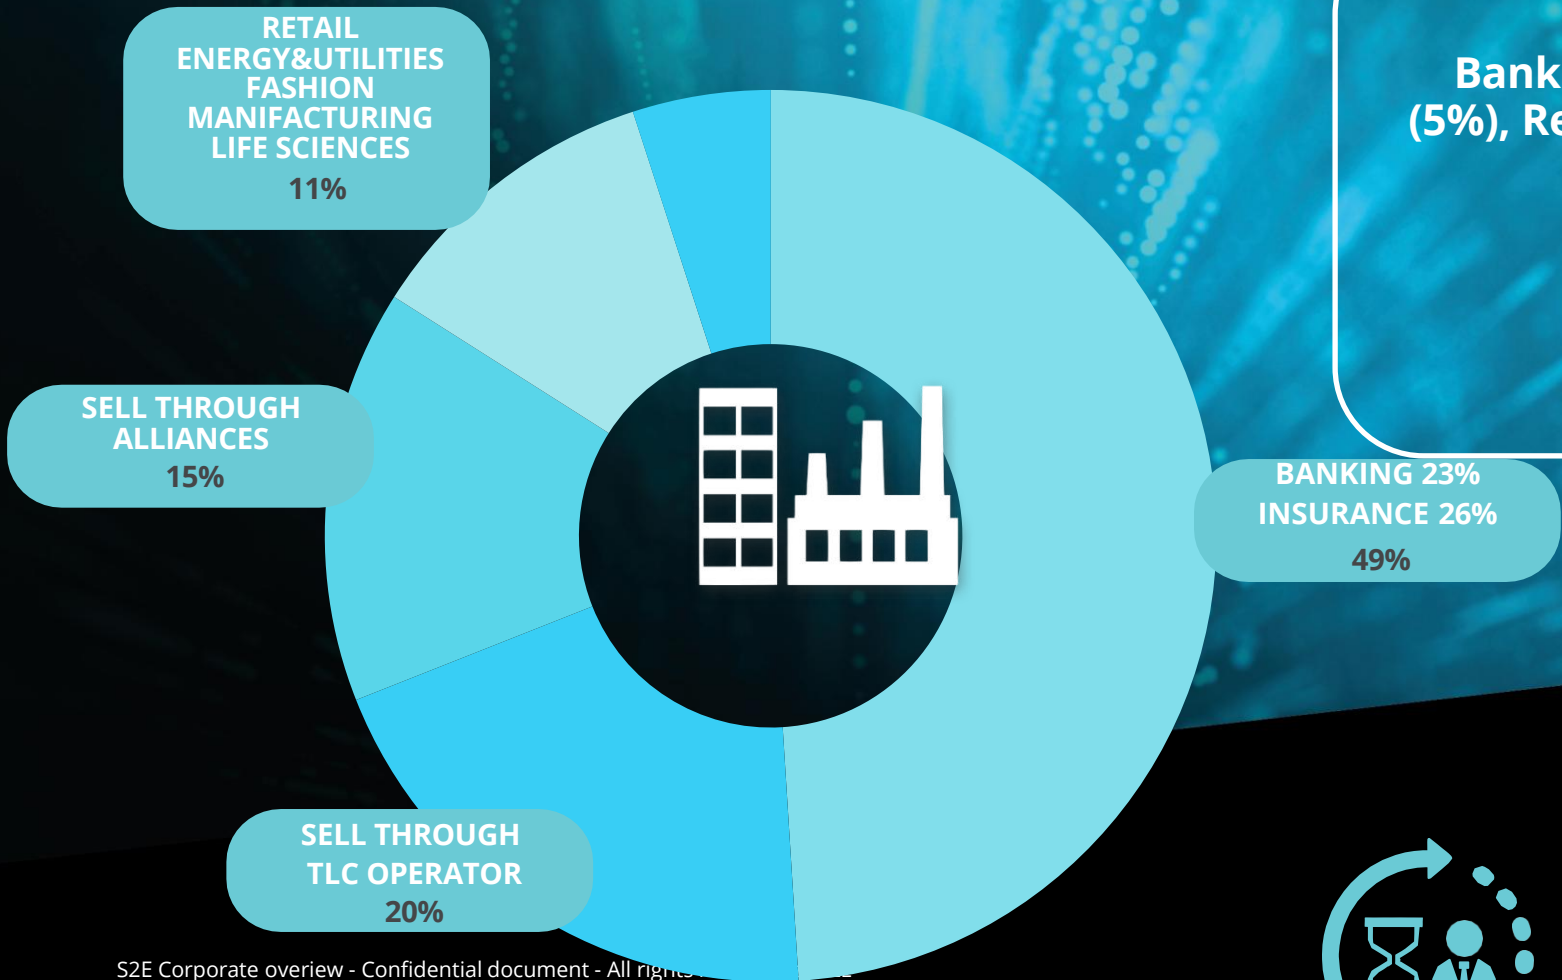

**S2E for Galene.AI's Generative Shield solution has been named in the 2025 Gartner® Market Guide for AI Trust, Risk and Security Management**

**Gartner® names Galene.AI among the leading AI Usage Control (“prompt proxy”) solutions in the 2025 Practical AI Security report**

**TARGET CLIENTS**  
Banking (23%), Insurance (26%), Public Sector (5%), Retail, Energy, Fashion, Manufacturing, Life Sciences

**SALES MODEL**  
Direct + Alliances

**S2E Client loyalty: 17% of clients for over 10 years; more than 50% for at least 3 years**

# MISSION AND CORE VALUES

S2E promotes the mutual and **continuing growth** of all stakeholders: this growth is driven by **People and Innovation**

## PEOPLE ARE AT OUR SUCCESS'S HEART

We grant specialized knowledge, high level of technical and managerial skills and we always strive for excellence.

We offer vertical products and high-quality tailor-made services, designed and managed using cutting-edge technologies to meet the specific needs of our customers.

## INNOVATION IS OUR PASSION

We continue scouting worldwide for new technologies and solutions to assist businesses and governments in their digital transformation.

Taking advantage of the best business analysts as well as private and university research centers, we help customers to feed the most effective and sustainable evolutionary technological paths.

Thanks to our R&D Centre we are able to create new solutions & products.

## S2E delivers a broad portfolio of business technology services across five key areas

### DATA ANALYTICS & BIG DATA

Data is a key enterprise asset to be monetized. We help our customers in defining their Data Transformation Strategy and adopting innovative solutions and AI-based technology to become winning data-driven organizations.

### DIGITAL TRANSFORMATION & HYPERAUTOMATION

Tailor made solutions and vertical products to meet the needs of complex businesses, built for high scalability and availability, ensuring enterprise-grade architectural, security, quality assurance, integration and DevOps standards.

Enabled by  
CLOUD, AI &  
PARTNERSHIPS

### CYBERSECURITY

We help, support and collaborate with our customers to develop, adopt, maintain and monitor the correct security posture with services of quality and value respecting compliance rules.

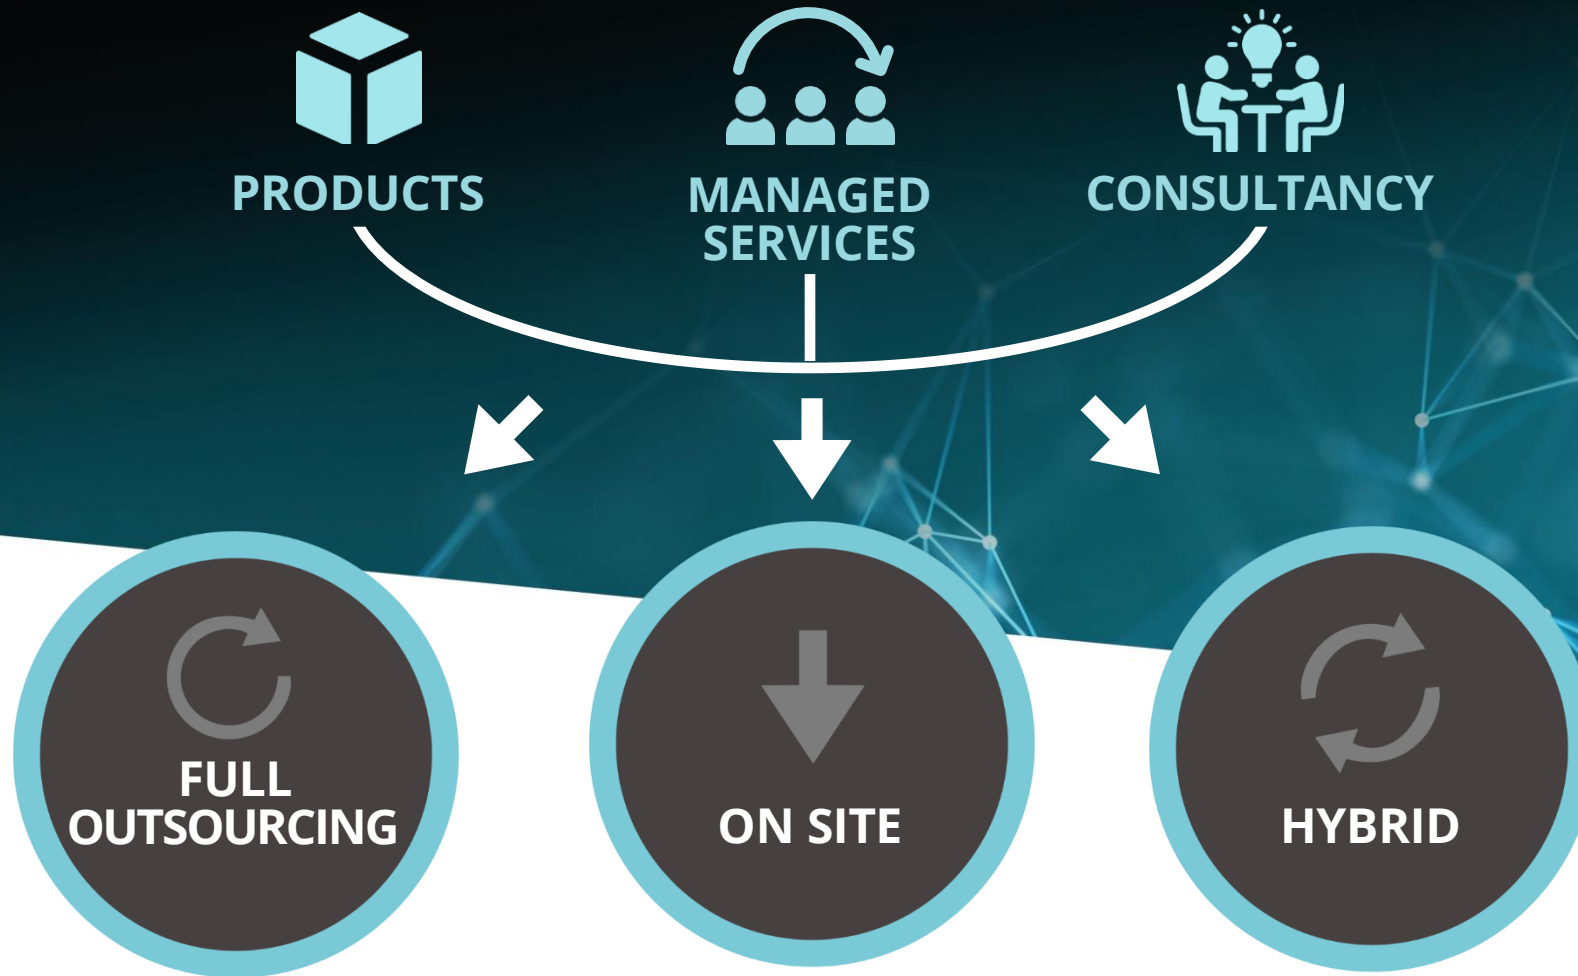

### ICT INFRASTRUCTURE

Solutions include the physical, logical, and technical services that connect all company devices to the internet, from telephones to computers to servers to intercommunications between geographical locations and across organizations.
